(We are offering private specials. More details upon request.)

Strict rules for these sessions:

- Absolutely no one with a fever or family member with a fever or has been in contact with anyone with a fever can register for classes or privates.
- NO family members/spectators will be allowed in the building (except in the case to make payment. This can be done over the phone preferably)
- We will use the front doors as an entrance and the side door (by the weight room) as an exit.
- Instructors/employees will meet classes at the front door and escort them in to their class. PLEASE BE ON TIME.
- We will have scheduled breaks for cleaning and sanitizing
- No one will be able to use the locker rooms. The family bathroom can be used for using the restroom purposes ONLY and only for the swimmers.
- All swimmers will need to come and go in their suits. No changing, showering or hanging out in the restrooms will be allowed. Ideally no one will use the restrooms as much as possible.
- All registration must be scheduled through me via email. We are not having normal/regular office hours yet.
- Any credits on file can be used for classes and/or private lessons. I can confirm if you're not sure what/if you have credits.
- We are taking instructor requests, although not all instructors are working yet and/or they may have time and day constraints.
- All classes will be maxed at 4 students.
