

COVID POLICIES

During these times we do have some altered policies to keep all staff members and customers safe. Please review all the below policies. These MUST be adhered to at this time. Please let us know if you have other questions!

- Absolutely no one with a fever or family member with a fever or anyone that has been in contact with anyone with a fever can come to classes. This includes any symptoms of Covid19 as well.
- NO family members/spectators will be allowed in the building (except in the rare case of payment, which we prefer via the phone) except in the case of emergency. This is not negotiable.
- We will use the front doors as an entrance and the side door (by the weight room) as an exit. There is a sanitizing station at the front door for everyone. There are also masks in the case that you have to come in to pay and prefer to wear one.
- Instructors/employees will meet classes & privates at the front door and escort them to class. PLEASE BE ON TIME.
- We have breaks built in for sanitizing and cleaning.
- No one will be able to use the locker rooms. The family bathroom can be used for restroom purposes ONLY and only for the swimmers. The restrooms are for SWIMMERS. Unfortunately they are not for parents or siblings.
- All swimmers need to come and leave in their suits. No changing, showering or hanging out in the restrooms will be allowed. Ideally no one will use the restrooms as much as possible.
- All registration needs to be scheduled via email or phone. We still do not have regular office hours so email is the quickest form of communication.
- Any credits on file can be used for classes and/or privates. I can confirm any credits on file.
- We are taking instructor requests, although not all instructors are working yet and/or they may have time and day constraints.
- All classes are maxed at 4 students.

Please send all questions to megan@swimatlanta.com
