

Covid-19 Response Health Precautions

Precautions prioritize the safety of swimmers and staff. Please read the following guidelines prior to arriving for class:

Arrival - Meet your instructor **READY** to swim. Swim students should be dressed in their bathing suit, cap on (if they wear one) and goggles on head or in hands.

Face Masks - We welcome swim students and parents to wear a face mask when arriving. Swim students should wear theirs in the building and remove it prior to entering the water. After they exit the pool, they may put their mask back on prior to leaving the building.

Face Shields - Instructors will be wearing a face shield or mask. The only time they will remove these is when they are teaching a GS3, PC1, PC2 or ASC class and **ALL** the students are in the water swimming. The instructor will be socially distant on the deck teaching and may remove their face covering if they choose.

Social Distancing - The instructors will escort the swim students from the main entrance to class. We **WILL** be practicing social distancing, so please talk with your student prior to arrival about this. The only time the instructors will have any contact with the swimmers is when they are in the water helping them with skills.

During Class - We are asking that **ALL** parents, except parents accompanying students in the pool for the INF/TOT class, wait in their cars until class is over. At that time, you will meet your swimmer where you dropped them off.

Facility - The restrooms and changing areas are **OPEN**, and showers are **CLOSED**. Please make sure your swimmer goes to the bathroom **BEFORE** you bring them to the instructor! Facility maintenance includes sanitizing surfaces and equipment, and pool chemical checks.

Low Student/Teacher Ratio - Beginner student ratio is 4:1, a maximum of four students to one instructor. Maximum student ratio for other classes is 6:1, six students to one instructor. If a class only has one swimmer enrolled, the class will become a 30-minute class instead of the regular 40 minutes.
